Why Choose Climabead for your New Build Homes?

Climabead offers many benefits for housebuilders:

- Quick install process
- Eliminates storage and waste of cavity batts on site
- Allows inspection of cavities to monitor build quality
- 100% full fill every time including around all details
- Specific designed material to perform in all weather in all exposure zones in the UK
- Improves cash flow, installs planned when you want
- Quicker construction time for external walls thus saving costs
- No need to worry about badly fitted batts
- Cheaper install costs than batts
- Lambda of 0.033 W/mk

Call 01443 441491 for more information

This table shows typical U-values for standard 100mm cavity after installation of Climabead:

Brick Climabead Dense block Dab & Plasterboard	Brick Climabead Medium Block Dab & Plasterboard	Render Medium Block Climabead Medium Block Dab & Plasterboard	Render Medium Block Climabead Medium Block Plaster	Brick Climabead Light Block Plaster
